## INFO

**Date of Birth**  
August 5, 1988

## Profile

Results-driven engineering leader with 12+ years of experience transforming technical vision into measurable business outcomes. Proven track record of scaling teams, architecting enterprise solutions, and driving platform innovations that directly impact revenue growth. At YNAP, progressed from developer to Principal Engineer to Domain Architect, leading cross-functional initiatives across mono-brand e-commerce platforms, driving significant revenue for the company. Specializing in high-performance front-end architectures, full-stack development, and e-commerce platforms.

## Core Competencies

- ◆ **Technical Leadership & Team Management** – Led cross-functional teams, mentored 10+ engineers, established best practices
- ◆ **Solution Architecture** – Designed scalable platforms for luxury e-commerce brands, mobile applications, and content systems
- ◆ **Full-Stack Development** – Expert in C#/.NET, JavaScript/TypeScript, React, Next.js; proficient in Go, Kotlin
- ◆ **DevOps & Infrastructure** – CI/CD pipelines, Docker, AWS/Azure, performance optimization, observability platforms
- ◆ **Business-Driven Innovation** – Delivered solutions that reduced development costs, accelerated time-to-market, and enhanced UX

## Professional Experience

### Engineering Team Leader

LuxExperience (formerly YOOX NET-A-PORTER) | Oct 2025 – Present

- ◆ Lead cross-functional team delivering end-to-end content discovery experiences, balancing hands-on development with strategic direction
- ◆ Partner with Product and Design stakeholders to ship high-impact features rapidly while maintaining quality standards
- ◆ Establish team coaching and mentoring practices to accelerate skill development and knowledge sharing

### Domain Architect

YOOX NET-A-PORTER GROUP | Jan 2025 – Sep 2025

- ◆ Provided strategic technical leadership for division serving Mr Porter, Net-a-Porter, and TheOutnet brands
- ◆ Established architectural standards and governance processes to improve division performance and team collaboration
- ◆ Optimized cost-effectiveness while maintaining platform stability and premium user experience

### Engineering Lead

YOOX NET-A-PORTER GROUP | Dec 2021 – Dec 2024

- ◆ Provided architectural guidance for mission-critical front-end and back-end projects across luxury brand e-commerce platforms
- ◆ Led Algolia search engine integration for Montblanc, significantly improving product discovery and conversion rates
- ◆ Guided 10+ front-end teams in adopting scalable, high-performance solutions, establishing technical standards and best practices
- ◆ Designed and developed administrative UI tools using Blazor Server, React (TypeScript), GraphQL, reducing operational overhead
- ◆ Contributed to serverless backend architecture with .NET Lambda functions, improving system scalability and response times

### Principal Developer

YOOX NET-A-PORTER GROUP | Jan 2020 – Dec 2021

- ◆ First Principal Developer in mono-brand division, setting technical direction for new luxury brand online stores
- ◆ Led successful launches of Cartier and Montblanc e-commerce platforms, delivering on aggressive timelines
- ◆ Architected OAuth-based authentication integration, enhancing security and user experience across brand platforms
- ◆ Collaborated with software architects to design solutions balancing performance, maintainability, and scalability

## Senior Interface Developer

YOOX NET-A-PORTERGROUP | Jan 2018 – Jan 2020

- ◆ Designed Coremedia CMS integration via REST APIs, establishing new development standard for mono-brand projects
- ◆ Reduced development time by 40% and significantly cut costs through innovative architectural approach to content management
- ◆ Led front-end team for Ferrari Online Store launch, delivering premium user experience on schedule
- ◆ Mentored junior developers while driving performance optimizations for The Outnet and Moncler re-platforming initiatives

## Interface Developer

YOOX NET-A-PORTERGROUP | Dec 2014 – Dec 2017

- ◆ Developed and revamped e-commerce platforms for Alberta Ferretti, Armani Exchange, Chloé, Stone Island, and Pomellato
- ◆ Implemented front-end test automation framework using NightwatchJS, Selenium, and CucumberJS, improving code quality
- ◆ Collaborated on IBM Watson Commerce and Coremedia CMS integration, defining optimal technical solutions

## Full-Stack Developer

Mediaticaweb S.r.l. | Apr 2012 – Oct 2014

- ◆ Built custom WordPress solutions and managed hosting infrastructure for diverse client portfolio
- ◆ Earned Google AdWords Certification while managing paid search campaigns and optimizing conversion rates

## Technical Skills

- ◆ **Languages & Frameworks:** C#/.NET, JavaScript/TypeScript, React, Next.js, Go, Kotlin, Node.js, Blazor
- ◆ **Architecture & Design:** Microservices, REST APIs, GraphQL, OAuth/OIDC, Serverless (Lambda), Mobile (iOS/Android)
- ◆ **DevOps & Tools:** Docker, CI/CD pipelines, AWS/Azure, Static code analysis, Observability platforms
- ◆ **Data & Integration:** SQL/NoSQL databases, Entity Framework, CMS integration (Coremedia, WordPress)
- ◆ **Methodologies:** Agile/Scrum, Test Automation, Performance Optimization, Code Review, Technical Mentoring

## Education & Certifications

### Istituto Tecnico Industriale Aldini Valeriani

Perito Capotecnico Industriale – Specializzazione Informatica | 2004 – 2009

Google AdWords Certification | 2014
